SM

SUMMARY

With over 5 years of experience in frontend development, skilled in React, Node, and JavaScript, I have driven high-quality code solutions impacting millions. My strongest achievement led to a 30% improve in user retention through a redesigned mobile platform.

EXPERIENCE

Frontend Developer

Tech Solutions Ltd

06/2020 - 09/2023 London, UK

- Led a team of developers to create a new customer-facing web application achieving a 40% increase in user engagement over 12 months.
- Developed a React Native mobile application that improved client satisfaction ratings by 30% within the first six months of launch.
- Integrated Typist with existing technologies improving code maintainability by 25% while reducing client-reported bugs by 15%.
- Optimised codebase to achieve 50% faster load times across major platforms, resulting in higher search engine rankings.
- Collaborated with product managers to conceptualize innovative web solutions, increasing feature delivery speed by 20%.
- Mentored junior developers, enhancing team productivity by 10% and improving codebase quality significantly.

Fullstack Developer

Digital Insights Group

01/2017 - 05/2020 Manchester, UK

- Redesigned company website using React and Node, decreasing bounce rates by 20% and improving conversion rates by 15%.
- Implemented REST APIs for main product line, improving server response times by 35% and ensuring data consistency.
- Spearheaded transition of team into agile methodologies, resulting in a 25% increase in sprint output performance.
- Created automated test suites leading to a 50% reduction in QA cycle time, enhancing product delivery cycles.
- Participated in system design sessions focused on scalable architecture, resulting in 10% expanded application capacity.

Web Developer

Innovatech Ltd

09/2014 - 12/2016 Newcastle, UK

- Delivered a headless CMS integration with React, reducing content update times by 30% across platforms.
- Developed dynamic web pages using ES6 and HTML5, enhancing interactive user experience and reducing page bounce rates.
- Collaborated on component library creation with Storybook, leading to an increase in developer onboarding efficiency by 20%.
- Implemented continuous integration pipelines, reducing deployment times by 40% and improving team's release confidence.

EDUCATION

Master of Science in Computer Science

University of Edinburgh

01/2012 - 01/2014 Edinburgh, UK

Bachelor of Science in Software Engineering

Newcastle University

01/2009 - 01/2012 Newcastle, UK

PROJECTS

Open Source Web Application for Nonprofits

Developed a web application to aid nonprofits in managing volunteer data using React and GraphQL. GitHub: github.com/scarlett/nonprofit-project

React-Based Educational Platform

Contributed to creating a React-based platform for interactive learning experiences. GitHub: github.com/scarlett/educational-platform

KEY ACHIEVEMENTS

Outstanding Web Solutions Award

Awarded by Tech Innovations for a mobile app project that improved engagement by 30%.

Implemented an Enhanced CI/CD Pipeline

Contributed to a project that reduced deployment failure rate by 25%, increasing delivery confidence.
